

KUIT STEINART LEVY LLP

Dispute Resolution England & Wales

Conflicts in business can prove to be both stressful and costly for the participants. Our objective is to provide a speedy response coupled with effective and objective commercial legal advice. Together with our clients, we look at the best commercial solutions using all available forms of dispute resolution.

Kuits has been acting for commercial clients ranging from sole traders to public limited companies with a multi national presence for over 100 years. Our offices are in the heart of Manchester's commercial district and only a short journey from England's other commercial centers.

Our dedicated Commercial Litigation and Dispute Resolution team has significant expertise and the additional advantage of having access to lawyers of all other commercial disciplines operating in the Practice. This enables our lawyers to have readily available in depth knowledge from all areas of the firm.

We offer our clients a bespoke service for their individual needs rejecting the "one size fits all" approach. However, this service is provided at commercially attractive rates which we will always discuss in advance.

Since joining TAGlaw, we have experienced significant successes when acting for TAGlaw members and their clients.

The Commercial Litigation and Dispute Resolution team covers all areas of commercial disputes including:-

- Agency disputes
- Construction disputes
- Contractual litigation
- Corporate litigation including shareholder disputes, applications for reduction of share capital and officers breaches of duty
- Contentious probate
- Defamation
- Employment litigation
- Insolvency litigation
- Insurance litigation
- Intellectual property litigation
- Product liability litigation
- Professional negligence litigation
- Property litigation
- Tax investigations
- Trading Standards prosecutions

Our team conducts proceedings in all Courts and Tribunals from the Magistrates Court to the recently constituted Supreme Court as well as the European Court of Justice. In addition to this, we encourage the use of ADR where appropriate to achieve more commercially viable solutions which are sometimes beyond the remit of the more formal Tribunals. Our team investigates all options available in conjunction with the client and our specialist ADR and mediation team.
