The Affordable Care Act: An Employee Benefits Perspective

Spencer Fane Partner Greg Ash discusses the Affordable Care Act and its impact on employers. Dating back to the enactment of COBRA, Spencer Fane's Employee Benefits Group has helped clients comply with the mandates imposed by an increasing array of federal laws affecting employer health plans. Today, that means advising them on the contours of federal health care reform legislation. Greg works with employers, third-party administrators, and insurers to explain the requirements of these laws, as well as opportunities the laws have created.
